for Keith

twelve

in the hofgarten
some fish summers
have profiled flesh

those voices went cardboard—
ghastly—
then the worst room come to
roost

long on husky or let

nonviolence moil
will still: “o.k.” to squatted fowl
while sunlight blur, for you who
commend
my unfaithful all

some conviction and
[line fail]

those husky men
of gold
reproach
or the best voice
of anybody

marinated

aster-flower with
its belongings
useless and flailing
shorties too real

maximum journey of the trees
fire nose shall hear young
think young

as when brothers hear-think the
language long-burning

under the sugar of atlas
as earth raised to song

the cold tragic
magic
gone real,
melted in arms—

last to roll all of thy know;

perhaps then a
strange swag shift
hood by hood by hood

barmen

from ideals
as a yip is about—

had a grisly closing

roundhouse roundballs; i
drink sometimes with idiot
ron, having served
you... we

construct

when to feel
the renounced orange reoccurrences

at the trough line, our trough line,
line most long, to me, since faith
to think of a rough cut

i am listening to
the carols
and you like it painful
the

zero dollars
the infinite wishes

rough
like swords

officer

pain worth a scattered brave truth
how time be the nite
every wonder at the lost

for you, he sat
a country rush over us just
as simple

all water
in the
causalities

now mom will ease
the of of this lay
toys to that son!
he a hero
be a bit

our every dad accident every day
the everyday bleeding
but piece protect letting

he touches mine and
somehow guards
sometimes beneath heavens—
must have helped
somewhat

evermore

befriends the lips of here

plain chomping
outside like
chumped rings

shagging derided bread
swerving the held ally theory

saves the virgins
a farther lover for arrays

tusk tossed aside

my butter roof buster
parallel rainfall losing the poem
broomstick shop
a garment above the mattress you lifted

above it, bitch

romantic

poetics:

what a wounded theatre they
are! sheen is smile
me talk variegated and
wouldn't your movie license
love to coat itself in
amazement?

loved leaves let skin love thee;
not poetic! abuse once else

pretending of you
eccentricity to
anybody who take fortress

our things mostly from our sons
check on the arcane

when love is
fine with

salt—their taste on me—
for the

love of

barren

drunks rebelling
deep-dish beer

to the envious shells:
the adult breeze

and the splintery wind
turning past on joy fast

fast violet sunshine
as long as the mill will rise!

in wonderment,
beyond the tenement streets,

churn fields to the green air hips
and cornices sated

obtunding

barriers blast
dull grandfather's cat's series
made from the under:

between the sharpest winter,
an eggplant palimpsest

the salt-battered morning wall will
never watch his invisible order,
refurbished in the about light
of the husband's restaurant

or through the turtles'
oily slants of hair
other wives of the unanticipated
blonde paw day beyond
our streaming!

verisimilitude

cozy darfur yawns
with ghana like

a vendetta stood by me
like from a plane film

swimming
like a boater

for you to have maybe anymore
you've got no morning like

can we maybe
like my me party?

the line time watching
like may been have done good in time

posit itches from flight
its stand not drawn less we like

watching films and worry yawns
like a spent swimmer

china anymore...
like morning heartbreaks strayed

freighters

[of] (at) you

clutch onto
strings across
the cross section

the by, as
exploded
as if it is

your moo, the moo will
world will think in silent time—

float among the people,
hate for the skip string gang
we the people, flea-ridden
and silent, enter,
disturb, and
explode

the many objects encountered
and furrows offered on

time into trying
called to come
why not days said
for parts to come in?
just come

up to the feel
unafraid
and weep for
the illuminati

that eye of nor or of not yet:

you want and
we umbrella a guess
be the first
to

hold that secret,
its every part

be the first to run
to love
to weep for the i of it
the you of it
too

forcefield

sucking side hours,
you were my sleep

five books wanted in warmth
four to find the path of birds
and baseball—a calm trip

inspired of
interesting tree love

families as states and
in legal, artistic use
you
rock
on!

have always family always there with you

continuously

up are stars
pride of america
old denouement
ladies love
the resonance rising
through the air gulping
the newsboys in mangled driving
mangled bodies of
pinned leaves which found
my cardinal
between the lips of loneliness
lips that they should drowse
like a lake of certainty
the shriek of the window
stars like certain others

from now on
clear up about
interracial man
in cool heat
the popping keep

i am sick underwater

please white with me
like a cool it other

it fresher,
like a nasty
frozen little
fuck... yo girl,

told you
to check the heat—
the heat is god,
the heat is
on in

school so

snoop far dirt and you
[defeat] (resemble)
the dogs of

my music

alive

can't die in public
won't herald chowder
within the monsters' places

the sun crawled
feeling like drinking,
drowning—drowning
in the acid of random
pandemonium—then
whispering *hell* while
watching loud television,
getting naked, eating
ghost cat rat meat
hamburgers, killing the
president, crawling slow,
sleeping yellow until noon,
questioning the capital
during a key focus
not of early june

email is the gmail of yesterday

since want is still the station
stain station still around
the girl good about town
my veteran truck,
early bed before police blots
hands—the drunken people
become the do say be it

be bad before the become
know the deluge of
slow cute radio
